Dear FCC:

We are handicapped senior citizens.

We are handicapped senior citizens. We rely on our Tracfone service for emergency care. We are on a fixed budget now....any extra expense means something else must be given up. Please think about this telephone service as something that is WORKING....please don't change it.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Cliff & Jackie Blackwell
